Projects

Currency Converter

- Tech Stack: React.js, Tailwind CSS, JavaScript
- Description:
    - Developed a responsive currency converter application using React for dynamic user interfaces.
    - Integrated a public API to fetch real-time exchange rates for accurate currency conversion.
    - Implemented a user-friendly interface with input fields and live conversion results.

Note Keeper App

- Tech Stack: React.js, Tailwind CSS, JavaScript
- Description:
    - Created a note-keeping application using React, providing a reactive and smooth user experience.
    - Implemented local storage for data persistence, allowing users to save and retrieve their notes.
    - Designed an intuitive and responsive user interface with features like note creation, editing, and deletion.
    - Ensured seamless navigation and interactions through the use of React components.

Password Generator

- Tech Stack: React.js, Tailwind CSS, JavaScript
- Description:
    - Developed a secure password generator with React for dynamic UI updates.
    - Used Tailwind CSS for styling, ensuring a modern and user-friendly design.
    - Implemented customizable options for password length and character types.
    - Provided a copy-to-clipboard feature for easy use of generated passwords.
    - Ensured the generation of strong and unique passwords using JavaScript.

Technical Skills

Strongest Areas	Data Structures, Algorithms
Programming Languages	C/C++, Javascript
Libraries/Frameworks	React.js, Express.js, Next.js, Git, Node.js, HTML5, CSS3, Tailwind
Database	MongoDB, Firebase, PostgreSQL
Platforms	AWS, Vercel, Heroku

Education

Indore Institute of science and Technology   *Indore, India*

B.Tech computer science engineering   *June. 2021 - . 2025*
